

FROM THE OFFICE

We want to personally thank everyone who came, ordered and supported the Summer Expo. This year we had record breaking attendance for both exhibitors and guests. Without each of you, the Summer Expo wouldn't be possible!

If you haven't confirmed your Expo orders, you will receive a phone call a couple weeks prior to your ship date to confirm your order. We have sent out email confirmations. If you respond to the emails and confirm your orders, we won't call! When confirming orders, please pay special attention to products, quantities, ship dates and delivery location.

WHOLESALE HOURS

Regular Hours

Monday - Friday

8:00 a.m. to 4:30 p.m.

We are also available before and after these hours and on Saturday if you call ahead to arrange an appointment. (800) 842-3276

MAKE A NOTE

Earth Juice Catalyst Update

Our current stock of Earth Juice Catalyst can be sold until the end of December. After that, the product will switch to a new label and will be called Xatalyst.

Product Update

Clear Greenhouse Film is now in stock. New 150' long sizes are available too!

Atami Bloombastic (0-14-15), 5500 ml (BBB5500) will be out of stock for about a month.

Dr. Earth Life All Purpose 25# and 40# (DELAP25 & DELAP40) are awaiting OMRI and CDFA OIM approval and will not be available until mid 2018.

Expected Plastic Products Price Increase

Due to the devastating natural disasters in Texas, there is a resin shortage. We should expect to see price increases on all or most plastic products, including product packaging. One manufacturer estimated an 8% increases. We will notify you as these increases occur.

FEATURED PRODUCTS

We continually look to bring you the latest and greatest trends. Each month we will feature some of those products. If you would like to see a new product in our lineup, let us know!

WHAT DO KENNY & BEN FROM TRIMBAG DO IN THEIR SPARE TIME?

When we're not working at Trimbag, we spend most of our Spare Time enjoying our families.

We feel it is important to have meaningful experiences with our children in the natural world that provide them with great memories and lifelong tools. We are outdoor enthusiasts living in the country where we can teach about organic gardening and how to raise animals. We have access to hiking, swimming, biking and trail riding right in our backyards. During the summer, we like exploring the many creeks and rivers that traverse the north state. Our adventures this year, took us all along the west coast from the beaches and mountains of Oregon, all the way down to the tip of Baja, Mexico. Our time in Mexico, sparked an interest and a curiosity in different cultures.

Trimbag is a family business, founded by two friends that feel getting the work done quickly and efficiently will allow us to spend our time building memories with the ones we love. Work smarter not harder.

Partner Spotlight

A Note from The Amazing Doctor Zymes

The Amazing Doctor Zymes is excited Sparetime has chosen to highlight Eliminator in their monthly newsletter. We are happy to be a part of the Sparetime family. Our OMRI listed, revolutionary green solution kills and eliminates soft-bodied insects, molds and mildews on your indoor and outdoor gardens. The active ingredient, citric acid, is derived from a fermentation process and is combined with other biologically stimulating ingredients to form a highly effective insecticide and fungicide. Eliminator is a mechanical action that pests, molds, and mildews cannot become immune to. It is oil-free

and therefore does not clog the stomata, resulting in increased photosynthesis, respiration, and transpiration. It increases yields when used as a preventative by keeping pests, molds, and mildews off your plants, fruits, and vegetables. Many customers have told us that if they had to select only one product to meet their needs, it would be Eliminator.

We discovered our product about three years ago and immediately began beta-testing on plants and received excellent reviews. Our humble beginnings had only three employees in a 300 ft² shed. We were just delivering locally in our truck and had only seven customers. Recently we have moved into a larger facility but are still making hand-crafted batches to ensure quality control. We pride ourselves on being a company that promotes the longevity and happiness of our employees while still maintaining a high-quality product at an affordable price for our customers.

Christine's Cooking Creations

We are fortunate to get homemade treats from Christine Griggs! We want to share some of her wonderful creations with you.

ROASTED VEGGIES

Ingredients

Use any of your favorites. Mike and I use a combination of what we have on hand.

- asparagus
- broccoli
- cauliflower
- carrots
- onions
- peppers
- mushrooms
- zucchini
- potato
- sweet potato

Slice or chop in good bite sized pieces, somewhat the same size. I like generous sizes so things don't get mushy, being too small.

Toss veggies in a bowl, with some olive oil (drizzle it over them, but not TOO much). Add garlic salt or sea salt and some pepper. Stir it around and put onto a cookie sheet. Spread them around so they are roughly one layer.

Roast for about 15 minutes, a little longer if you like them softer. YUM
